Team12-miniproject2-Crypto Punks analysis

In this dashboard, we are analyzing the daily sales and number of Crypto Punks collections sold over the period of January 2021 to October 2022. We also look at the average price of the NFTs along with the top buyers of Crypto Punks over the last year.

What are Crypto Punks?

Crypto Punks are a collection of 10,000 unique characters on the Ethereum blockchain. The project came to life in 2017, a brainchild of Matt Hall and John Watkinson of Larva Labs Studio. The Crypto Punks NFT collection is believed to have inspired the ERC-721 standard that forms the bases of many digital art and collectibles.

#749 Offered for 73.42Ξ ($313,774)
